Broker

Professional Biography

We focus on becoming a long-term partner to our clients by building trust, reliability and accountability. The practice is process-driven with the aim of consistency of service delivery and speed to market with clients' assets. This includes a fully integrated service offering, all wrapped around a superior value proposition. The team has multi-assignment transaction experience on a global basis and coordinates activities through state-of-the-art database platforms and technology. We are performance-driven and offer measurable results while annually being recognized by NAIOP International with awards for International Broker and Transaction of the year. The group was founded over 20 years ago on the basis of partnering with unconflicted, best-in-class providers on the ground in each of the respective countries that we serve.
